

## PROFESSIONAL SUMMARY

I'm a final-year Computer Engineering student with a passion for Full Stack Development. My journey has given me a solid foundation in Java and valuable hands-on experience through internships and academic projects. I've honed my skills in front-end development, database management, and UI/UX design, and I've enjoyed bringing dynamic web applications to life using Object-Oriented Programming, SDLC, and Agile methodologies. I'm excited to continue learning, contribute fresh ideas, and grow as a Full Stack Developer in a collaborative environment.

## EDUCATION

- Government Engineering College, Modasa**  
Modasa, Gujarat  
BE in Computer Engineering  
CGPA 7.43

2021 - Present

## WORK EXPERIENCE

- MERN Stack Developer Intern**  
Webito Infotech Pvt Ltd, (Remote)

June 2024 (1-Month)

- Developed a Dashboard with CRUD operations using the MERN stack.
- Built a responsive ToDoList App with sign-in/sign-up features.
- Implemented secure user authentication and optimized UI with Tailwind CSS and Material UI.

## TECHNICAL SKILLS

- Programming Languages:**  
C, Java
- Web Development:**  
HTML, CSS, JavaScript, React.js, Node.js
- Database Management:**  
SQL, MongoDB
- Version Control:**  
Git, GitHub
- Object-Oriented Programming (OOP)**
- Algorithms & Data Structures**
- Development Environments (IDEs):**  
VSCode, Eclipse
- Operating Systems:**  
Windows, Linux

## PROJECTS

- MasteryMate**
  - Crafted a web platform that connects skilled artisans with customers, using a blend of HTML, CSS, JavaScript, Node.js, Express, and MongoDB.
  - The platform makes it easy for users to find, request, and manage artisan services, ensuring a smooth experience on both ends.
- EMP - Employee Management System**
  - Developed a user-friendly employee management system with React.js, Tailwind CSS, and Material UI on the front end, and Node.js, Express.js, and MongoDB on the back end.
  - Included essential features like a Dashboard, Employee details page, JobCategory page, and User Profile to streamline management tasks.
- ToDo List App**
  - Built a responsive ToDo List app using React and Node.js, making task management simple and efficient.
  - Added features like task creation, deletion, and status updates, along with local storage to ensure users' data is always saved.

## LEADERSHIP EXPERIENCE

- Event Coordinator, "Crypt the Treasure": Led event planning and managed a team of 130 members for a successful event.
- Lead, Adani Foundation Visit (UDAN Project): Coordinated logistics and communication for an educational trip with 96 participants.

## ACHIEVEMENTS & CERTIFICATIONS

- Java-Core Concepts Certification, DevTown.
- Data Structure & Algorithms Certification, DevTown.
- Web Development Fundamentals Credly badge, IBM SkillsBuild.
- Applied Cloud Computing for Software Development, Edunet Foundation.
